

OMAR DERKAOUI

Backend Software Engineer

✉ omarderkaoui1337@gmail.com | 📞 +212 6 76 26 74 94 | 🌐 github.com/gundam1337 | 🌐 omarderkaoui.cc

Backend-focused software engineer with a track record of shipping production features in fintech and trading platforms. Specialized in NestJS, PostgreSQL/Oracle, and integrating complex legacy banking systems. 1337 Coding School graduate with strong systems fundamentals from C/C++ and a mathematical background that brings rigor to backend architecture and problem-solving.

OMAR DERKAOUI

Backend Engineer, Chaotic Good

Armor Class Production-hardened (NestJS + Prometheus)

Hit Points 42 (6d8 + 15) — 6 UAT-tested features shipped

Speed Ship fast. Debug faster. Iterate always.

STR	DEX	CON	INT	WIS	CHA
10 (+0)	14 (+2)	16 (+3)	18 (+4)	14 (+2)	12 (+1)

Skills API Design +8, DB Architecture +7, Legacy Integration +7, Systems Design +6

Senses Darkvision (async flows 60 ft), Truesight (legacy APIs)

Languages Arabic (Native), French (Prof.), English (Prof.)

Challenge Mid-level (3,900 XP)

ACTIONS

NestJS Mastery. Shapes scalable backend services at will. Proficient in TypeORM, JWT/Passport, Redis queues, Socket.io, and Prometheus instrumentation.

Database Architect. Designs and optimizes PostgreSQL and Oracle schemas from scratch; uses targeted indexing to eliminate query-latency bottlenecks.

Legacy Reverse-Engineering. Integrates undocumented SOAP and REST APIs without sandbox access. Succeeds even on a failed Intelligence check.

BONUS ACTIONS

Full Stack Surge (Recharge 5–6). Switches to Next.js 15, React 19, TypeScript, and Tailwind CSS when the front line falls.

EQUIPMENT

GitHub Actions • Docker

TONGUES KNOWN

LANGUAGES

Language	Proficiency
Arabic	Native
French	Professional
English	Professional

SPELLBOOK

BACKEND SPELLS — KNOWN

NestJS • Node.js • Express • PostgreSQL • OracleDB • TypeORM • Redis • Socket.io • JWT/Passport • Jest • Prometheus • Firebase Admin • Nodemailer • Puppeteer

FRONTEND CANTRIPS

Next.js 15 • React 19 • TypeScript • Tailwind CSS • Zustand • TanStack Query • Radix UI • Framer Motion • Zod • Axios

LEGENDARY TRAITS

- **Grandmaster of the Chessboard** — Peak blitz ELO 2300
- **Seeker of Mathematical Truth** — Geometry & Olympiad problems

QUESTS & CAMPAIGNS

BACKEND SOFTWARE ENGINEER

FinaMaze | Feb 2025 – Present | Casablanca

- First backend contributor on a B2B fintech platform serving a major Middle Eastern bank, where AI-driven asset managers build and rebalance investment portfolios.
- Owned end-to-end design and delivery of the onboarding and KYC module, reverse-engineering undocumented SOAP APIs without a sandbox environment.
- Designed Oracle schemas for authentication, user onboarding, notifications, and messaging; optimized critical queries with targeted indexing.
- Built the notifications and messaging subsystems with background jobs and queue-based async dispatch.
- Implemented JWT/Passport authentication and Prometheus instrumentation.
- Took 6 features through UAT and pre-production across a 24-person engineering organization.

BACKEND DEVELOPER

AIKON Mobile App | Oct 2024 – Feb 2025 | Remote

- Contributed backend features to an iOS social-trading platform combining messaging and trading workflows in a single mobile experience.
- Designed and built the WhatsApp Business API integration, enabling traders to engage through a familiar messaging channel.
- Implemented real-time chat with Socket.io; modeled the PostgreSQL schema for messaging features and shipped them into production.
- Implemented JWT and social login; collaborated with a 6-person cross-functional team.

FULL STACK ENGINEER

Upwork — Freelance | Feb 2024 – Oct 2024 | Remote

- Delivered full-stack web projects for international clients end-to-end:

requirements through deployment and handover.

- Built Node.js/Express backends alongside React frontends with authentication and third-party integrations.
- First commercial software engineering role; transitioned full-time into tech after 1337 Coding School.

MATHEMATICS TEACHER

Ministry of National Education | Sep 2021 – May 2024 | Beni Mellal

- Taught mathematics to high-school students while transitioning into software engineering through 1337 Coding School.
- Developed strong skills in breaking down complex concepts — directly applied to technical communication and documentation.

CHESS INSTRUCTOR

Al Akhawayn School | 2018 – 2019 | Beni Mellal

- Coached chess to children aged 6–10; competitive player with a peak blitz ELO of 2300.

LORE & TRAINING

COMPUTER SCIENCE — COMMON CORE

1337 Coding School | Dec 2018 – Jun 2022 | Khouribga

- Intensive peer-led, project-based program (Moroccan branch of 42 Network); no lectures.
- Specialized in low-level systems and computer graphics with C/C++; built a multi-threaded ray tracer rendering complex scenes with realistic lighting.

BSC ELECTRONIC ENGINEERING & TELECOMMUNICATIONS

FST Beni Mellal | 2015 – 2019

- Coursework in electronics, signal processing, telecommunications, and industrial computing.
